**RE: Annual Report of Hazardous Waste Exports for Calendar Year 2017**

Gentlemen:

SMI Steel LLC dba CMC Steel Alabama (CMC) reports its activities relating to the export from the United States of hazardous wastes. The information provided is required pursuant to and fulfills the obligations of 40 CFR 262.56 and the Alabama Department of Environmental Management Administrative Code R.335-14-3-.05(7).

5. CMC was approved to ship for zinc reclamation to Zinc Nacional 5,000 tons for the period of October 1, 2016 to September 30, 2017.

- 5i. A description of the efforts undertaken during the year to reduce the volume and toxicity of waste generated.

The volume of K061 produced is dependent on the volume of steel produced. Annual melt shop steel production and K061 generation in 2016 and 2017 was similar in amount.

Calendar Year	K061 Generated
2015	7,285 tons
2016	7,571 tons
2017	7,584 tons

CMC exports/ships this material to Zinc Nacional or other zinc reclamation facilities for the sole purpose of reclamation of the zinc metals contained therein. Its contract with Zinc Nacional requires a minimum of 15% zinc. Zinc Nacional recovers the metal for use in pigments, medicines, and other commercial and industrial uses. The residues from the processing are non-hazardous. Therefore, after reclamation by Zinc Nacional, the hazardous waste volume is reduced to zero and the toxicity of all solid waste by products is zero.

- 5ii. A description of changes in volume and toxicity of waste actually achieved during the year in comparison to previous years to the extent such information is available for years prior to 1984.

There was no change in toxicity of waste generated by CMC during 2017.
